

# Start Up Package

## The support every beginning needs

The most important step is having the courage to start – and you’ve already taken that step.

You’ve entered the world of business, turning your dream into reality. What was once just an idea on paper is now taking shape as something real. Every day, you’re living it with dedication, effort, and belief in what you’re building. And yes, as rewarding as it is, it also comes with its challenges.

At the beginning, there are no guarantees – only hope, and many decisions that need to be made quickly, often with limited information. Plans change from day to day. Obstacles arise, and the road is not always a straight one. As full of energy and passion as it may be, stepping into entrepreneurship is one of the biggest challenges you can take on. In this journey, the right support at the right time makes all the difference.

The Start Up Package is not just a banking solution. It’s our commitment to giving every new idea the space it needs to grow. A mindset toward entrepreneurship. A way to show that the role of the bank doesn’t end with a service, it begins with real support, exactly when you need it most.

Start Up is designed for those at the beginning of their journey, regardless of industry or size. What would usually go toward monthly account fees now stays in your hands. We help you focus on what truly matters:

Your work

Your clients

The idea you’re bringing to life

From day one, we offer one clear thing: a partnership built with care, made to last.
